The screenshot shows a Trello board titled "braindump-app". The board is organized into four lists:

- To Do - Maybe**: Contains one card: "write more tests for classes".
- To Do - Must**: Contains one card: "+ Add a card".
- Testing + Doing (TDD)**: Contains one card: "+ Add a card".
- Done**: Contains the following cards:
  - raise error for ctrl+c exit
  - make executable script
  - get tests to pass for classes
  - add method for ARGV  
[2/2]
  - comment all code (see bookmarks)
  - refactor code DRY
  - fix current errors/warnings
  - implement error raising/handling
  - show schedule (sorted + colorized)  
[5/5]
  - add fun feature when complete all tasks
  - not max character limit for add task

At the bottom right of the board, there is a button "+ Add another list".
